

EUROPEAN CURRICULUM VITAE FORMAT

PERSONAL INFORMATION

Name	D'AMICO MICHELE
Address	DEIB – PIAZZA L. DA VINCI 32 – 20133 MILANO
Telephone	+39.02.2399.3613
Fax	+39.02.2399.3413
E-mail	michele.damico@polimi.it
Nationality	Italian
Date of birth	1965

WORK EXPERIENCE

- Dates (from – to) 2002 - present
- Name and address of employer Politecnico di Milano, Dipartimento di Elettronica e Informazione e Bioingegneria, Milan, Italy
 - Type of business or sector Higher education and research (University)
 - Occupation or position held Associate Professor
- Main activities and responsibilities Research and teaching. Institutional duties.

- Dates (from – to) 1993 - 2002
- Name and address of employer Politecnico di Milano, Dipartimento di Elettronica e Informazione
 - Type of business or sector Higher education and research (University)
 - Occupation or position held Assistant Professor
- Main activities and responsibilities Research

EDUCATION AND TRAINING

- Dates (from – to) 1993-1996
- Name and type of organisation providing education and training University of Essex, Colchester, UK
- Principal subjects/occupational skills covered An Anisotropic Model of the Electromagnetic Properties of the Melting Layer, and Comparison with Radar Observations (tutor Prof. A.R. Holt)
- Title of qualification awarded Doctor of Philosophy (Ph.D.) in Mathematics
- Level in national classification n.a.
(if appropriate)

- Dates (from – to)
- Name and type of organisation providing education and training
- Principal subjects/occupational skills covered
 - Title of qualification awarded
- Level in national classification (if appropriate)

1983-1989
 Politecnico di Milano, Milan, Italy
 Electronics, Telecommunications
 Master of Science (Laurea) in Electronic Engineering (Telecommunications)
 n.a.

TECHNICAL SKILLS AND COMPETENCES

RESEARCH ACTIVITIES

Research activities include antennas, electromagnetic wave propagation in the troposphere, and radarmeteorology.

Research activities in antennas are focused on the design of innovative, compact antennas for the UHF band and for higher frequencies; these include: antennas with reconfigurable radiation pattern and/or polarization state; metamaterial-based antennas; ZOR antennas; and antennas for the THz band.

In the recent past, research work carried out jointly by Politecnico di Milano and the Wireless System Laboratory of Drexel University (US), has led to the creation of ADANT (www.adant.com), a very dynamic start-up whose mission is to exploit our intellectual property to develop and market novel and revolutionary antennas for next generation wireless communication systems.

Research activities on electromagnetic waves propagation are focused on the interaction between EM waves at frequencies above 10 GHz and the troposphere (and its constituents like gases, hydrometeors, etc.). Again, three main themes: development of a physical model for the prediction of interference, due to rain scatter, among independent satellite communication systems operating on the same frequency; investigation of the performance of a cluster of small Earth-space communication terminals employing small-scale, multiple-site diversity technique; characterization of the propagation of laser beams in the lower troposphere, for applications to Free-Space Optics communication systems.

Research activities on radarmeteorology have followed three main themes: first, the development of a software radar simulator, that generates the time series of the signals received by a meteorological polarimetric Doppler radar operating on a virtual environment. Second, the development of an anisotropic electromagnetic model of the melting layer. Third, the development of the new Radar Signal Processor of the S-band Doppler radar located in Spino d'Adda; this activity included the acquisition of the processing hardware and the implementation of the numerical algorithms.

Since May 2013 he is responsible for the experimental activities of the Spino d'Adda laboratory of the Politecnico di Milano, dedicated to the experimental investigation of EM waves in the troposphere.

TEACHING ACTIVITIES AT POLITECNICO DI MILANO

Teaching of the course "Wireless and Mobile Propagation" - 5 credits (50 hours) A.Y. 2012/13, 2013/14, 2014/15, 2015/16, 2016/17.

Teaching of the course "Campi Elettromagnetici" (Electromagnetic Fields) - 10 credits (100 hours) – A.Y. 2012/13, 2013/14, 2014/15, 2015/16, 2016/17.

Teaching of the course "Radiopropagazione" (Radiowave Propagation) - 5 credits (50 hours) – A.Y. 2010/11, 2011/12.

Teaching of the course "Circuiti a Radiofrequenza e Antenne" (RF circuits and Antennas) - 10 credits (100 hours) – A.Y. 2003/04, 2004/05, 2005/06, 2006/07, 2007/08, 2008/09, 2009/10, 2010/11, 2011/12.

Teaching of the course "Campi Elettromagnetici" (Electromagnetic Fields) - 5 credits (50 hours) - A.Y. 2004/05, 2005/06, 2006/07, 2007/08.

Teaching of the course "Antenne" (Antennas) - 10 credits (100 hours) – A.Y. 1997/98, 1998/99, 1999/00, 2000/01, 2001/02, 2002/03, 2003/04.

AWARDS AND HONORS

IEEE Senior Member – November 2015

Bright future ideas award – UK consulate, UK Trade & Investment – Milan January 2010

Second prize Premio Nazionale Innovazione (PNI) – Perugia December 2009

First prize business plan competition Start-cup Milano Lombardia – Milan October 2009

Best business idea – Scouting ICT – Milan June 2009

MAIN EXTERNAL ACADEMIC AND SCIENTIFIC ACTIVITIES

Visiting professor and lecturer of the course "*Radiopropagacion y medios de transmision*" (48 hours) at ESPOL - Escuela Superior Politecnica del Litoral, Guayaquil, Ecuador, in the period 16 November - 1 December 2015.

Visiting professor and lecturer of the course "*Radiopropagacion y medios de transmision*" (48 hours) at ESPOL - Escuela Superior Politecnica del Litoral, Guayaquil, Ecuador, in the period 17 November - 1 December 2014.

Member of the Scientific Committee of CNIT (National Inter-University Consortium for Telecommunications) for the period 2014 -2017.

Visiting professor and lecturer of the course "Radar Technology and Weather Observation" at UTM - University Teknologi Malaysia, Kuala Lumpur, Malaysia, in the period 27 November - 11 December 2011.

Visiting professor and lecturer of the course "*Radiopropagacion y medios de transmision*" (48 hours) at ESPOL - Escuela Superior Politecnica del Litoral, Guayaquil, Ecuador, in the period 18 October - 5 November 2011.

Reviewer for the "Dutch Technology Foundation (STW)" of proposals for financed research projects, March 2009.

Reviewer for the "Israel Science Foundation (ISF)" of proposals for financed research projects,

May 2008.

Reviewer for the "United States - Israel Binational Science Foundation (BSF)" of proposals for financed research projects, March 2007.

Member of the Technical Program Committee/ Designated Reviewer of the following international conferences: ICTEC2015, ICOCOE'2015, I4CT 2015, APACE 2014, ICOCOE'2014, ISWTA2013, RFM 2013, APACE 2012, ISWTA2012, ICEDSA 2012, ARP 2010, SARNOFF 2010, SARNOFF2009, ARP 2007, ARP 2006, EUMW 2002.

Also served as a reviewer for the following journals: IEEE Transactions on Signal Processing, Journal of Applied Meteorology and Climatology, Journal of Atmospheric and Oceanic Technology, Progress In Electromagnetics Research (PIER), Radio Science.

SELECTED RESEARCH CONTRACTS

Responsible of the research contract entitled "Studio di algoritmi di processing di radar avionici per il rilevamento di polveri in atmosfera. Definizione dell'impatto a livello di sensori installati su velivolo", stipulated between Politecnico di Milano (Dipartimento di Elettronica, Informazione e Bioingegneria) and IDS Ingegneria dei Sistemi S.p.A. on November 2015.

Responsible for Politecnico di Milano of the European research contract entitled "X-WALD - Avionic X-band Weather signal modeling and processing vALidation through real Data acquisition and analysis", stipulated in the framework of the Clean Sky Joint Undertaking (FP7) in January 2014 (duration 18 months).

Responsible for Politecnico di Milano of the European research contract entitled "CLEOPATRA - CLEaner OPERations Attained Through Radars' Advance", stipulated in the framework of the Clean Sky Joint Undertaking (FP7) in April 2011 (duration 24 months).

Responsible of the research contract entitled "Ripristino, avvio operativo e manutenzione delle apparecchiature di proprietà ASI installate presso la Stazione di Spino d'Adda del Politecnico di Milano", stipulated between Politecnico di Milano (Dipartimento di Elettronica e Informazione) and Agenzia Spaziale Italiana (ASI) on February 4th 2009 (duration 18 months).

Responsible of the research contract entitled "Advanced Triggering System, Definizione delle specifiche di un sistema di cronometraggio wireless", stipulated between Politecnico di Milano (Dipartimento di Elettronica e Informazione) and Microgate (Bolzano) on January 13th 2006 (duration 12 months).

Responsible of the research contract entitled "Progettazione dell'adeguamento funzionale della rete radio del centro monitoraggio geologico e per la gestione del sistema radio a microonde di rilevamento pluviometrico", stipulated between Politecnico di Milano (Dipartimento di Elettronica e Informazione) and Agenzia Regionale per la Protezione dell'Ambiente della Lombardia on August 1st 2005 (duration 22 months).

Responsible of the research contract entitled " Trasmissione dati su linee elettriche", stipulated between Politecnico di Milano (Dipartimento di Elettronica e Informazione) and CESI (Centro Elettrotecnico Sperimentale Italiano) on July 19th 2005 (duration 6 months).

Responsible of the research contract entitled "Valutazione scientifica del rapporto TIM, riguardante l'installazione di un ripetitore per la telefonica mobile sul territorio del Comune di Cusano Milanino", stipulated between Politecnico di Milano (Dipartimento di Elettronica e Informazione) and Comune di Cusano Milanino on November 24th 2004.

Responsible of the research contract entitled "Sviluppo di un sistema di gestione dei rischi idrogeologici nell'area del Lago Maggiore: interconnessione dei sistemi ossevativi", stipulated between Politecnico di Milano (Dipartimento di Elettronica e Informazione) and Regione Piemonte on December 16th 2002.

Responsible of the research contract entitled "Evoluzione delle strutture piovose nella Pianura Padana", stipulated between Politecnico di Milano (Dipartimento di Elettronica e Informazione) and Ente Regionale di Sviluppo Agricolo della Lombardia (Regione Lombardia) on March 13th 2002 (duration 9 months).

Responsible of the European research contract entitled CEE EVK1-CT-2000-00060 "MANTISSA" (Microwave Attenuation as a New Tool for Improving Stormwater Supervision Administration), stipulated on February 1st 2001 with the European Commission in V Framework Programme (duration 36 months).

Responsible of the research contract entitled "Definizione delle specifiche dell'interfaccia radio di un sistema antiinvasione wireless" stipulated between Politecnico di Milano (Dipartimento di Elettronica e Informazione) and CFD Elettronica S.p.A. on February 5th 2001 (duration 12 months).

Responsible of the research contract entitled "Evoluzione delle strutture piovose nella Pianura Padana", stipulated between Politecnico di Milano (Dipartimento di Elettronica e Informazione) and Ente Regionale di Sviluppo Agricolo della Lombardia (Regione Lombardia) on July 24th 2000 (duration 9 months).
