

Matteo STRANO is a *researcher* at the Dipartimento di Meccanica, Politecnico di Milano. In year 2013 he received the Italian national habilitation to *associate professor*. Formerly, from 2001 until 2008, he had been assistant professor at the University of Cassino (Italy).

He leads a research group at the lab MUSP (Macchine Utensili e Sistemi di Produzione), a public-private consortium located in Piacenza.

He is one of the coordinators for industrial stages and internships of Mechanical Engineering students of Dipartimento di Meccanica.

He is the author of about 70 publications of different kinds in the field of manufacturing systems and processes, including 22 papers in peer reviewed international journals, chapters in 4 research and textbooks and one patent.

He has taught a very large number of university classes at all levels of studies (undergraduate, graduate and Ph.D.) with full responsibility, with an average of about 12 credits per year since 2001. He currently teaches the following classes: “Advanced manufacturing processes” for the Master program in Mechanical Engineering, “Principi di progettazione e Tecnologia Meccanica” for the bachelor in Mechanical Engineering. The full list is reported below.

He regularly organises and teaches courses of continuous education for industrial personnel. He has worked with several companies (e.g. Agusta, Fiat, Coxa, BLM and several others).

His current research interests are aimed at 1) the study and improvement of tube and sheet metal forming processes (e.g. hydroforming and bending), 2) advanced machining processes (e.g. cryogenic machining), 3) innovation in machine tools (e.g. design of machine tools with new materials such as cellular metals), 4) new methods for optimization under uncertainty of processes through the FEM. He has personally proposed, obtained funding and managed several research projects both with public and private funding.

He frequently works with the industry and many of the theses he has supervised have been developed in cooperation with industrial companies.

EDUCATION

He took his Master degree in 1996 at the Politecnico di Milano in Industrial engineering with a thesis on Abrasive Waterjet Cutting of Aluminum Sheets.

He took his Ph.D. in 2002 at the Politecnico di Milano with a thesis on FEM Simulation of the Tube Hydroforming Processes. He spent half of the doctoral studies at the Ohio State University (Engineering Research Center for Net Shape Manufacturing).

MEMBERSHIPS

He is a member of the editorial board of the technical magazine “Macchine Utensili” and of the scientific board of ESAFORM (European Scientific Association for Material Forming).

He is a stable reviewer for international journals such as: “Journal of Manufacturing Processes”, “Journal of Cleaner Production”, “International Journal of Machine Tools and Manufacture”, “Int. J. of Materials and Product Technology”, “International Journal of Material Forming”, “Journal of Manufacturing Science and Engineering”.

He is a member of the Scientific-Technical Committee of MUSP.

He is the former Secretary of the AITEM (Associazione Italiana di Tecnologia Meccanica) chapter “FLT-Formatura della lamiera e dei tubi” (Tube and sheet metal forming).

He is a registered expert and regular reviewer of research projects for the Italian Ministry of Research (MIUR), for the Latvian Council of Science and for the European commission Research & Innovation portal.

DISTINCTIONS

At the ESAFORM 2006 conference, the paper titled “A technique for FEM optimization under uncertainty of time-dependent process variables in sheet metal forming” has been judged as the best paper of the.

He supervised the Master thesis “Studio numerico e sperimentale dei limiti tecnologici di un'operazione di tranciatura fine, winner of the UCIMU prize in year 2013 for theses in cooperation with the industry..

LIST OF UNIVERSITY COURSES TAUGHT

Years	University	Course title	Level	no. of credits	average no. of students
since 2013	Politecnico	<i>Advanced manufacturing processes</i>	Graduate.	10	20
since 2011	Politecnico	<i>FEM Simulation of Forming Processes</i>	Graduate	6	4
since 2009	Politecnico	<i>Manufacturing Technology I For Energy Engineers</i>	Underg.	5	120
2011 and 2013	Politecnico	<i>Materials and Manufacturing Processes For Energy</i>	Graduate	4	25
2009 to 2013	Politecnico	<i>Manufacturing Technology II</i>	Graduate.	10	15
2006 to 2008	Cassino	<i>Statistical Design of Experiments</i>	Ph.D.	2	5
2004 to 2008	Cassino	<i>Flexible Manufacturing</i>	Graduate	5	3
2003 to 2008	Cassino	<i>Planning and control of Mechanical Production</i>	Underg.	4	7
2005 and 2007	Cassino	<i>Planning of manufacturing processes</i>	Post-Master	2	25
2006	Cassino	<i>Transfer of research and Intellectual property</i>	Ph.D.	2	5
2006	Cassino	<i>Computer Aided Manufacturing</i>	Graduate	5	8
2001 to 2003	Cassino	<i>Unconventional Technologies</i>	Graduate	9	12
2002	Cassino	<i>CAD/CAM systems and techniques</i>	Underg.	4	8
